

Revolutionize Your Cockpit Comfort with the B737 Tablet Support

Made by JustSoSmart.com

Designed to hold any tablet comfortably on the control column of the B737, this innovative product is a game-changer for pilots seeking ease and efficiency.

Key Features:

- **Effortless Installation:** No fixation needed. Simply place the Support on your control column, and you're ready to go.
- **Call Sign Convenience:** Equipped with two handy slots for writing your call sign, ensuring vital information is always at your fingertips.
- **Ergonomic Design:** Eliminates the need to constantly turn towards the window to operate your tablet, preventing back pain and improving posture.
- **Stable and Secure:** The Support is designed to keep your tablet in place, even with slight movements of the control column, ensuring uninterrupted use.
- **Affordable and Accessible:** With a simple and low-cost design, this product is accessible to all, ensuring price is never an obstacle.
- **3D-Printed Precision:** Our Support is 3D printed for high accuracy and durability, providing a perfect fit and long-lasting performance.
- **Note:** This product is not FAA/EASA approved. Only to be used on ground with engines cutoff.

Why Choose the B737 Tablet Support?

- **Pilot-Friendly:** Created by aviation professionals, for aviation professionals, understanding your needs and enhancing your workflow.
- **Enhanced Comfort:** Say goodbye to awkward seating positions and hello to a more comfortable and efficient cockpit experience.
- **Cost-Effective:** A budget-friendly solution without compromising on quality or functionality
